PROFESSIONAL SUMMARY

Motivated BCA student with a strong foundation in Java, Python, JavaScript, SQL, and web development, along with hands-on experience in building practical applications using React.js, Spring Boot, and databases. Possess strong problem-solving skills, a quick learning ability, and a keen interest in Artificial Intelligence, software development, data analytics, and user-focused digital solutions. Eager to apply technical knowledge, creativity, and adaptability to contribute effectively to a professional team while continuously learning and growing in the technology field.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML

Backend: Spring Boot, Hibernate

Frontend: React.js, Bootstrap

Database: MySQL, PostgreSQL, MongoDB

PROJECTS

Digital Document Reminder | MERN Stack GitHub

React.js, Node.js, Express.js, MongoDB

- Developed a web application that helps users manage important documents and track their expiry dates.
- Implemented functionality for users to store document details, monitor expiry dates, and receive reminders for documents approaching expiration.

CERTIFICATIONS & COURSES

- **Java, Spring Boot & Hibernate**: Gained expertise in object-oriented Java programming, building RESTful web services with Spring Boot, and managing database persistence using Hibernate ORM.
- **Backend Development**: Mastered server-side logic, API development, database integration, and backend architecture patterns for scalable web applications.
- **Frontend Development**: Learned responsive web design, component-based UI architecture, state management, modern JavaScript , and API integration.
- **Ethical Consideration for Generative AI**: Learned responsible AI practices, ethical challenges, privacy, fairness, and risks associated with Generative AI.
- **Introduction to Retrieval Augmented Generation (RAG)**: Learned the fundamentals of RAG and how external knowledge sources improve the relevance and accuracy of AI-generated responses.
- **Power BI**: Learned data visualization and dashboard creation using Power BI to present data interactively.
- **UI/UX Design Using Figma**: Learned UI/UX fundamentals, wireframing, prototyping, and designing user-friendly digital interfaces using Figma.
- **Artificial Intelligence**: Gained foundational knowledge of Artificial Intelligence concepts, applications, and intelligent systems.

EDUCATION

Bachelor of Computer Application (BCA) Hubballi, Karnataka

KLE University – P.C. Jabin Science College
